

Roaster Level One Skills Training

30 minute One on One Training

About the Course

This course will give you a fundamental understanding of the roasting process and the key determining factors in heating control, the roast cycle, process logging and how to control basic sensory aspects of the coffee by roasting light or dark. This session is ideally suited for people new to the coffee industry or those looking to gain an insight into the broad-subject matter of roasting coffee.

The 20 sessions are available for 20 AFCA members to have 30 minute one to one roasting experiences. Once you register a time slot will be allocated to you on site at the Toper Booth.
